

AI PROTOCOL (Anti-Inoculation)

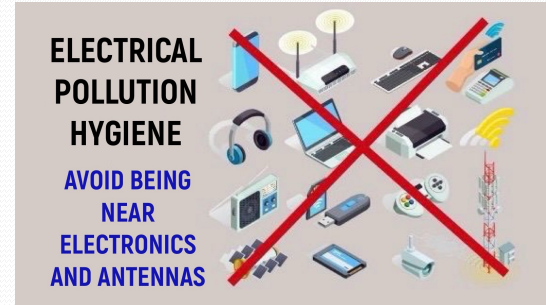

WORLD HEALTH AND LIFE COALITION

Under no circumstances does COMUSAV recommend people to get the experimental “vaccine” against COVID-19. This detox protocol helps, but it cannot prevent adverse effects or complications post-inoculation.

GENERAL RECOMMENDATIONS

- **Alkaline Diet**
 - Avoid: flours, sugar and dairy products; red meats if possible and increase water intake.
- **Grounding** or “Earthing”
 - At least 3 times a week for 30 minutes minimum (walking barefoot on nature such as grass, sand, even mud).
- **Electrical Pollution Hygiene**
 - Avoid being near electronic devices such as 4G-5G antennas, Wi-Fi, etc...

PRE-INOCULATION

- **Diet rich in fruits and vegetables**
 - Start 48 hrs prior to the job.
- **CDS F20 Protocol**
 - Finish it 1 hour before inoculation.
- **Zeolite (Food Grade)**
 - Ideally 1 week before the job.

F20 PROTOCOL

STEP 1
Add 20ml of 3000ppm CDS to a glass or plastic bottle.

STEP 2
Add 750ml of drinking water.

STEP 3
- Mark the bottle in 8 parts.
- Drink one part of the mix (or doses) every 15 mins.
- All doses will finish in 2 hours.

STEPS ORDER MAY VARY BASED ON INDIVIDUAL PREFERENCES

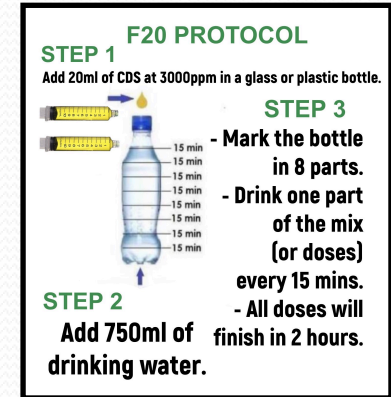

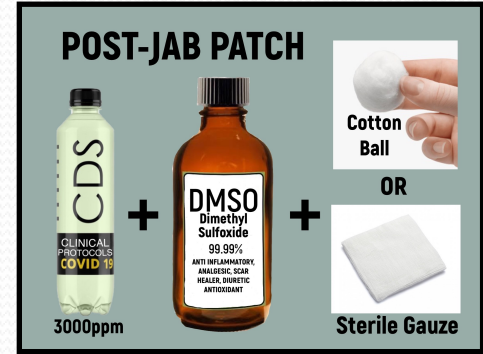

PRE-INOCULATION (1 WEEK)		
	Sprays	Mg
Spray Liquid Zeolite	2 sprays in the mouth 3 times a day	30+
	Dropper	Mg
Dropper Liquid Zeolite	1 drop 4 times a day <i>* Follow product instructions *</i>	30
	Reference Unit of Measure	Gr
Micronized Zeolite	Mix 1/2 of a teaspoon 1 a day in 250 ml water	3
Zeolite Capsules	Drink 2 capsules 3 times a day with 250 ml water	3

ZEOLITE
(food grade)

POST-INOCULATION (day of)

(Start this protocol no later than 30 minutes after the jab)

- **DS Protocol (Dermatologic Spray)**
 - Disinfect the area with CDS in spray (1/3 of CDS at 3000ppm + 2/3 saline solution or purified water)
- **CDS + DMSO Patch (for the injected area)**
 - Mix 7ml of CDS + 3ml of DMSO at 70% concentration (cotton ball or sterile gauze) apply in the jab area for 15-20 minutes.
- **Local Heat** (jab area, use a seed bag, hand warmer, heat cushion, etc.)
 - 15-20 minutes every 2-3 hours throughout the day.
- **CDS F20 Protocol (twice)**
 - Two F20 Protocols Post-Inoculation (distribute throughout the day right after the jab and before bedtime).

DAILY MAINTENANCE (3-6 months)

- **Drinking Seawater** one intake on an empty stomach.
 - 50 ml seawater + 50 ml drinking water (30 days).
 - THERE AFTER
 - 25ml seawater + 75 ml drinking water (60 days).
- **Zinc 50mg + Vitamin D3 2000 ui** (with breakfast).
- **CDS 1 C20** (100ml 10 times throughout the day).
- **Zeolite** (food grade, see table).
- **Melatonin 3mg** at bedtime.

CDS C20

20ml CDS + 1L water
1 dose every hour

POST-INOCULATION (3-6 MONTHS)		
	Sprays	Mg
Spray Liquid Zeolite	4 sprays in the mouth 3 times a day	90+
	Dropper	Mg
Dropper Liquid Zeolite	4 drops 3 times a day	90
	<i>* Follow product instructions *</i>	
	Reference Unit of Measure	Gr
Micronized Zeolite	Mix 1/3 of a tablespoon 3 times a day in 350 ml water	6
Zeolite Capsules	Drink 3 capsules 3 times a day with 350 ml water	6

ADDITIONAL THERAPIES

- **CDS Enema (Protocol E)**
E20 20 ml CDS
in 500ml water
(twice a week).

- **Foot-baths with CDS and seawater for 30 minutes.**
20 ml CDS + 180ml water. (Ideally seawater but any clean water can be used).
30 mins. daily for 7 days.
If CDS evaporates due to temperature, add more as needed.

- **Purilanbor (Marine Electrolytes)**
 - **Pre-Inoculation:**
 - 3 sublingual drops (1hr before).
 - **Post-Inoculation (day of):**
 - 3 sublingual drops before bedtime.
 - **Daily maintenance (3-6 months):**
 - 2 sublingual drops AM & PM

- **Energy Therapies**
- **Pranic Healing**
among others...

THESE ARE SUGGESTIONS THAT WILL ACCELERATE THE HEALING PROCESS.
